SPRING

1950

UNUSUAL ITEMS

.. Order yours early ..

BLUE MIST SPIREA

From August until frost it is covered with clusters of powdery blue, fringed flowers. This shrub makes a small mound about 2 ft. in diameter. Foliage is slightly toothed and silvery green in color.

Blooming Size Plants **\$1.00**

BRISTOL RUBY WEIGELA

Plant Pat. No. 492

Most outstanding new red flowering shrub. Bell shaped flowers of soft-ruby-red deepening to garnet-crimson. Blooms profusely during spring and early summer and repeats in the late summer and early fall.

18-24 inch..... **\$1.25** 2-3 feet **\$1.50**

FRUIT-MOR-ENCY

New Dwarf Cherry

An improved strain of Montmorency, developed in Fruitland, Idaho. The red fruit is large, firm, fine flavor, the best of all Cherries for canning. Ripens about ten days after Early Richmond. The tree is a rather short grower so the fruit can be easily picked.

3½-4 feet **\$2.50**

GINKGO TREE

The ginkgo tree has been on earth since the time of the dinosaurs, millions of years ago. Its fan-shaped leaf is found in no other flowering plant. Because the ginkgo is resistant to insect or fungus attack, it is especially desirable as an ornamental or street shade tree. The bark of the ginkgo is fissured into ridges of irregular shape and an old tree is deeply furrowed.

4-5 ft. **\$2.50**

**MINNESOTA SNOWFLAKE
MOCKORANGE**

Plant Pat. No. 538

A new hardy very double pure white mockorange, originated in Minnesota. Unlike most other varieties of Mockoranges, Minnesota Snowflake holds its vigorous foliage on the lower branches, making it especially valuable for individual planting. Blooms in June and July.

2-3 feet **\$1.50**

FIR

CONCOLOR. A native of the Colorado Rockies and very well adapted to the Plains and Central States. The color of the foliage is from bright silver to a beautiful live green, varying with different trees.

18-24 inch.....	\$6.00	2½-3 feet.....	\$ 8.25	
2- 2½ feet.....	7.25	3 -3½ feet.....	10.00	
4- 5 feet.....	16.00			

DOUGLAS. The fastest and largest growing pyramid evergreen. Foliage is a good deep green and disease-resistant.

4-5 feet.....	\$12.50	6-7 feet.....	\$16.00	
5-6 feet.....	14.00	7-8 feet.....	18.00	

HEMLOCK

CANADIAN. Valuable for landscape use in partial or heavy shade, or on north side of buildings. Makes a regular conical form, tapering evenly from a broad base to a long thrifty shoot. Grows very rapidly and stands pruning well.

12-15 inch.....	\$1.75	2½-3 feet.....	\$10.00	
2- 2½ feet.....	7.50	3 -3½ feet.....	15.00	

JUNIPERS

ADMIRABILIS. Long, trailing stems with upright spreading branches and dark green foliage. Grows rapidly and makes a very pleasing effect when planted on terraces.

12-15 inch.....	\$3.00	15-18 inch.....	\$4.00	
-----------------	---------------	-----------------	---------------	--

ANDORRA. A trailing beauty of superb coloring. Low spreading branches, covered with finely cut foliage. Bright silvery green color during the summer, turning to mauve-pink during the winter. See illustrated folder.

12-15 inch.....	\$3.00	18-14 inch.....	\$5.00	
15-18 inch.....	4.00	2- 2½ feet.....	6.00	

CANAERT. An outstanding grafted variety of Virginia Juniper with dark green whip cord foliage and attractive bluish fruit. It requires trimming to produce and maintain a formal shape. See prices of all Grafted Junipers on Page 3. See illustrated folder.

COLORADO SILVER. Seedling form of the widely known Western Juniper. Silvery foliage, symmetrical growth, and thrives in hot, dry weather.

2½-3 feet.....	\$6.50	4 -4½ feet.....	\$11.00	
3 -3½ feet.....	7.50	4½-5 feet.....	12.50	
3½-4 feet.....	9.50	5 -5½ feet.....	14.00	

DUNDEE. Another upright-growing grafted variety of Virginia Juniper which, with a minimum of shearing, can be kept a compact, symmetrical pyramid of moderate size. Its summer color is silver green and its winter color is an attractive plum purple.

HETZI. A spreading type of evergreen resembling Juniper Pfitzer in habit of growth with silver-green foliage. Grows quite rapidly, stands shearing well, and makes up into a splendid compact evergreen. Often called Silver Pfitzer.

18-24 inch.....	\$6.00	2-2½ ft.....	\$8.50	
-----------------	---------------	--------------	---------------	--

HILLBUSH. Natural habit of growth similar to Juniper Savin or can be developed into a perfect ball shape. The foliage is remarkably robust and healthy looking, a fine deep rich green color all year.

18-24 inch.....	\$6.00	2-2½ feet	\$7.50	
-----------------	---------------	-----------	---------------	--

HILL'S SILVER. Has very light, frosty blue foliage which is most pronounced during the spring and hot summer. Growth is compact and symmetrical. See prices of all Grafted Junipers on Page 3.

JUNIPERS, Continued

MEYER. The outstanding characteristics of this evergreen are its irregular habit of growth and unusual color. The leaves are plump, pointed and prickly, and of bright shining blue color. The foliage appears of different colors when viewed from various angles, with distinct tones of green, white and pinkish red.

12-15 inch.....\$4.00 15-18 inch.....\$5.00

MOFFETT. An attractive grafted type of the Colorado Silver, with mixed green and silver foliage. Can be grown without shearing. See prices of all Grafted Junipers on Page 3.

PATHFINDER. Another grafted type of the Colorado Silver, which found favor almost instantly by reason of its outstanding silver foliage. See prices of all Grafted Junipers on Page 3.

PFITZER. This is one of the most important low spreading evergreens ever produced. It will stand considerable shade and crowding, which makes it a great favorite for foundation planting, borders and in front of larger evergreens. Color stays a deep blue-green all year. See illustrated folder.

12-15 inch.....\$4.00	2 -2½ feet.....\$ 7.50
15-18 inch..... 5.00	2½-3 feet..... 9.00
18-24 inch..... 6.00	3 -3½ feet..... 11.00

PFITZER GOLDEN. An exquisite new yellow form of the widely known Pfitzer Juniper. The foliage comes out a clear canary yellow interspersed with green. It loses some of its bright color during the late summer but comes out again in the spring with the brilliant gold.

18-24 inch.....\$6.00 2-2½ feet.....\$7.50

ROBINHOOD. A columnar grafted type of the Colorado Silver with rather fine, dense, silver green foliage that does not require trimming. See prices of all Grafted Junipers on Page 3.

SAVIN. The old familiar, low, many-branched shrub. Well covered with short, tufted, dark green foliage. Likes sunny location better than shade.

12-15 inch.....\$3.00 15-18 inch.....\$3.75
18-24 inch..... 4.50

STUHR'S SILVER. A grafted type of the Colorado Silver that can be used to advantage where a slow-growing upright evergreen is desired. The whip-cord foliage is silvery green and very dense. See prices of all Grafted Junipers on Page 3. See illustrated folder.

TAMARIX SAVIN. More of a low-spreading shrub than the true Savin Juniper, having many fine needles of bluish green. Derives its name from the resemblance which the needles bear to the leaves of the tamarix. See illustrated folder.

15-18 inch.....\$4.50 18-24 inch.....\$6.00

JUNIPERS, Continued

VIRGINIA. This variety is well known throughout the country as Red Cedar. Dense and columnar, with bluish green foliage turning to a reddish purple in late fall. Used extensively in landscape work and also for wind-break protection.

18 -24 inch..... \$2.45	3 -3½ feet..... \$5.20
2 - 2½ feet.... 3.60	3½-4 feet..... 6.30
2½- 3 feet.... 4.40	4 -4½ feet..... 7.40

Extra bushy compact specimens of the above variety available in the following sizes:

2 -2½ feet..... \$4.95	4 -4½ feet..... \$ 9.90
2½-3 feet..... 6.00	4½-5 feet..... 11.00
3 -3½ feet..... 7.15	5 -5½ feet..... 12.00
3½-4 feet..... 8.25	5½-6 feet..... 13.00

VIRGINIA GLAUCA. Often called the Silver Red Cedar, it is a grafted form of the Virginia Juniper. Its most distinctive feature is the silvery blue color, which is almost a blue-white in the spring, darkening somewhat as the season progresses. See prices of all Grafted Junipers on Page 3.

VON EHROH. An interesting variation of the Savin Juniper, and of extremely rapid growth. The compact branches are dark green.

18 -24 inch..... \$5.00	2-2½ feet..... \$6.25
2½- 3 feet..... 7.50

PINES

AUSTRIAN. Pictured in illustrated folder. Spreading branches with long dark green needles. Splendid tree for ornamental planting either in the background or as a choice specimen on the lawn.

18-24 inch..... \$4.00	2½-3 feet..... \$6.00
2- 2½ feet..... 5.00	3 -4 feet..... 7.50

MUGHO. Very hardy, spreading dwarf compact Pine. Fine for foundation plantings or used in front of larger growing evergreens.

12-15 inch..... \$4.00	18-24 inch..... \$6.00
15-18 inch..... 5.00	2- 2½ feet..... 8.00

PONDEROSA. Invaluable for solid backgrounds or enormous, spreading specimens on the lawn. Needles are longer than on any other Pine, extraordinarily thick, and of a rich deep green.

18 -24 inch..... \$4.00	2½-3 feet..... \$6.25
2 - 2½ feet.... 5.25	3 -3½ feet..... 7.50
3½- 4 feet..... 8.75

WHITE. Noted for its soft, light silvery green needles, and its graceful, majestic stature. It is extremely rapid in growth, hardy and dependable.

18-24 inch..... \$4.00	2½-3 feet..... \$ 6.50
2- 2½ feet..... 5.00	3 -4 feet..... 10.00
4- 5 feet..... 12.00

NEBRASKA NURSERIES

SPRUCE

BLACK HILL. A compact little beauty, its thick foliage of dark green interspersed with blue tints.

12-18 inch.....	\$3.00	2 -2½ feet.....	\$5.00
18-24 inch.....	4.00	2½-3 feet.....	7.50

COLORADO BLUE. The most popular of the so-called Blue Spruces. Like many highly colored Evergreens, this bluish color is a bloom or sheen—a sort of powdery substance on the outside of the needles; therefore, it is most pronounced after the new growth appears.

18-24 inch.....	\$7.00	2½-3 feet.....	\$12.00
2- 2½ feet.....	9.00	3 -3½ feet.....	15.00

COLORADO GREEN. Same as the above except that it has a greenish sheen instead of the blue.

18-24 inch.....	\$6.00	2½-3 feet.....	\$ 9.00
2- 2½ feet.....	7.50	3 -3½ feet.....	11.00

THE JAPANESE YEW

No family of Evergreens has created such interest in recent times as the Yews. The reason lies in the outstanding merit of the tree in richness of color, which is maintained at all seasons; the variation of form, the ease of training and pruning, the thriftiness of growth and the adaptability to various soils and planting locations. Yews are thoroughly at home in partial or even dense shade and will grow luxuriantly on the north side of buildings, and under the shade of other trees, maintaining their waxy, deep blackish green color.

PLANTING SERVICE

Prices in this list do not include planting. For quotations on planting service and landscape estimates phone 2-5454.

NEBRASKA NURSERIES

YOUNG ARISTOCRATS

ROOTS WRAPPED IN MOSS

Save money by buying nice young trees and growing them into specimens yourself. These trees can be moved successfully bare-root, without a ball of earth. They have been transplanted twice and will grow into valuable trees very rapidly. For descriptions of varieties see the preceding pages. See planting instructions for Bare-Root Evergreens.

SPREADING JAPANESE YEW

Dwarf spreading evergreen with glossy dark green foliage and large red berries in the fall. Will stand complete shade where all other evergreens fail. Available in the following "Young Aristocrat" sizes.

9-12 inch\$1.00 12-15 inch\$1.50

15-18 inch 2.00

For larger balled and burlapped stock see Page 5.

Plant Bare Root Trees Immediately

Have your ground ready by the time your trees arrive. Do not expose the roots to the air. After unpacking the shipment, put the roots into a pail of water or thin mud and soak thoroughly. Take out one tree at a time from the pail; then holding the tree in place with one hand, fill the hole about three-fourths full with soil, packing firmly. Water thoroughly, and when it has soaked in, fill up the remainder of the hole.

EVERGREEN SHRUBS

- EUONYMUS**, Carriere. A low shrub with ascending and spreading branches and semi-glossy evergreen foliage. Orange fruit resembles bittersweet.
Potted Plants.....**\$.25** 12-15 inch.....**\$1.50**
- EUONYMUS**, Patens. One of the most attractive of all shrubs. The bushy plants have glossy green foliage, brilliant coral red berries and stay green most of the winter. Excellent for north side plantings, but does equally as well in the shrub border or used as a hedge.
12-15 inch.....**\$1.00** 15-18 inch.....**\$1.75**
- INKBERRY** (Ilex Glabra) A loose, spreading shrub, 4 to 5 feet high at maturity, with shining dark green leaves and a profusion of glittering black berries through the winter. An excellent plant for shady places.
12-15 inch B & B.....**\$3.75**
- MAHONIA** (Oregon Holly-Grape) An evergreen shrub with shiny large, spiny, metallic looking leaves which turn a bronzy red in autumn. In spring the clusters of yellow flowers are very attractive and are followed by blue fruit in June and July. Does not mind shade and has very ornamental foliage for cutting.
Potted Plants**\$1.50**
- JAPANESE HOLLY** (Ilex Crenata) A very bushy plant with shiny dark green, Boxwood-like foliage. The glossy leaves are so profuse that twigs are invisible. Does well in light shade or full sun.
12-15 inch B & B.....**\$5.25**
- PYRACANTHA**, Lalandi. (Firethorn) A most remarkable fruiting evergreen shrub. Bears attractive large trusses of white flowers during the late spring followed by brilliant orange-scarlet berries which remain late into the winter. A marvelous plant for foundation planting where soil is dry. Prefers a warm, well drained location.
Potted Plants**\$1.00**
- ## HARDY GROUND COVERING PLANTS
- BALTIC IVY**. A most graceful vine with small glossy almost evergreen foliage. Perfectly hardy and a splendid vine on walls with north or east exposure, also an excellent ground cover. Each**\$.50**
- EUONYMUS**, Coloratus. (Purple-leaf Wintercreeper) A trailing evergreen vine that can be used effectively as a ground cover or to train against wall or rocks in natural beauty. The foliage which is always good is at its height when in the autumn it takes on the rich colorings of red and bronze that are carried through the winter.
Potted Plants.....**\$.25** 12-15 inch.....**\$1.50**
- EUONYMUS**, Radicans. An excellent low semi-trailing shrub, fine in either shade or sun. Its habit is a bushy growth with small dark shiny green foliage. This vine may also be trimmed into a small evergreen hedge or used as a ground cover.
Potted Plants.....**\$.25** 12-15 inch.....**\$1.50**
- EUONYMUS**, Radicans Vegetus. (Evergreen Bittersweet) A strong growing variety, with larger leaves than the above type, and producing bright orange-red berries, which remain on the plant the greater part of the winter. Can be used as a wall or ground cover.
Potted Plants.....**\$.25** 12-15 inch.....**\$1.50**
- JUNIPER**, Admirabilis. (See Page 2)
- JUNIPER**, Andorra. (See Page 2)
- VINCA**, Minor. A trailing evergreen type plant, used extensively for carpeting the ground under shrubs or trees or on graves, where it is too shady for grass or other plants. Each.....**\$.40**

ROSES

All our Roses are western grown, two year field grown specimens. They are well sprayed during the growing season and dug only when well ripened.

CLIMBING ROSES

BLAZE. Everblooming Paul's Scarlet.....	\$1.50
DR. J. H. NICHOLAS. Everblooming rose pink.....	1.50
PAUL'S SCARLET. Brilliant scarlet.....	1.25
VAN FLEET JR. Everblooming flesh pink.....	1.50

FLORIBUNDA and POLYANTHA

BABY CHATEAU. Dark red blooms on tall plants.		
BETTY PRIOR. Large, single two-tone pink blooms.		
CAMEO. Shell-pink and salmon. Medium grower.		
CECIL BRUNNER. Sweetheart Rose—Salmon pink.		
DAGMAR SPATH. White, edged pale pink.		
ELSE POULSEN. Rose pink blooms on tall plants.		
EUTIN. Vigorous grower—dark red flowers.		
FLORADORA. New—cinnabar-red. Tall grower.		
FOLKESTONE. Tall plants—large rose red blooms.		
GLORIA MUNDI. Low grower—orange scarlet blooms.		
GOLDEN SALMON. The favorite low hedge rose.		
GRUSS AN AACHEN. Cream and pink—ideal bedder.		
IDEAL. Old favorite—small bright red blooms.		
IMPROVED LAFAYETTE. Large clusters cherry red.		
ORANGE TRIUMPH. Enormous clusters of orange red.		
PERMANENT WAVE. Rosy-pink with cerise edges.		
PINOCCHIO. Salmon pink and gold rosettes.		
SPRAY CECIL BRUNNER. Dainty peach pink buds.		
WORLD'S FAIR. Brilliant scarlet red flowers.		
\$1.25 each	5 for \$6.00	10 for \$11.75

OLD FAVORITES—ALWAYS POPULAR

AMI QUINARD. The Black rose, crimson maroon.		
AUTUMN. Orange, red and yellow, very double.		
BETTY UPRICHARD. Coppery salmon-pink.		
CALEDONIA. High-centered blooms of pure white.		
CHAS. K. DOUGLAS. Double bright red blooms.		
CONDESA DE SASTAGO. Yellow and deep rose pink.		
EDITH NELLIE PERKINS. Profuse blooming, two-tone pink.		
FRAU KARL DRUSCHKI. White hybrid perpetual.		
GRUSS AN TEPLITZ. Favorite dark red bedding rose.		
GROOTENDORST. Shrub rose, red flowers all summer.		
JOANNA HILL. Long narrow buds, bronze yellow.		
MME. JULES BOUCHE. Continuous blooming white.		
PINK GROOTENDORST. Carnation pink blooms all summer		
PINK RADIANCE. True pink, continuous blooming.		
RED RADIANCE. Rose red, also blooms continually.		
\$1.25 each	5 for \$6.00	10 for \$11.75

Give newly planted Nursery Stock a **thorough soaking**, once each week during the first summer and fall.

NEBRASKA NURSERIES

ORNAMENTAL SHRUBS

- ALMOND, Flowering.** Double pink flowers early spring.
2-3 ft. branched\$1.25
- ALTHEA, Red, Pink, White and Purple.** Excellent for either specimen or group planting. Blooms in late summer.
3-4 ft.\$1.00
- BARBERRY, Green.** Red berries and coppery red foliage in the fall.
12-15 in.\$.40 15-18 in.....\$.50
18-24 in.65
- BARBERRY, Mentorensis.** The evergreen barberry. Plant Pat. No. 99.
15-18 in.\$.90 18-24 in.\$1.10
- BARBERRY, Red.** Planted in full sun, the leaves stay red all summer.
15-18 in.....\$.75 18-24 in.....\$1.00
- BEAUTY BUSH.** Delicate pink flowers, resembling Weigelia.
2-3 ft.\$1.50
- BUSH CHERRY, Nanking.** Plant these for beauty and for fruit. In the spring, the plants are hidden by masses of white flowers; in the summer, the branches are covered with luscious red fruit.
2-3 ft.\$.75
- BUTTERFLY BUSH, Pink and Dark Purple.** The lovely fragrant flowers are beautiful in the garden and fine for cutting. Perennial shrub.
Blooming Size Plants\$1.00
- CALLICARPA (Violet Jewel Berry)** Gracefully recurving branches covered in late September by masses of violet-purple berries that last until mid-winter.
18-24 in.\$1.00
- COTONEASTER.** Glossy, dark green leaves and black fruit.
18-24 in.\$.90
- CRANBERRY BUSH.** Resembles Snowball, white flowers are followed by clusters of bright red berries.
2-3 ft.\$1.35
- DOGWOOD, Bloodtwig.** Hardy, vigorous, upright shrub with bright red bark in winter.
2-3 ft.\$1.00
- DOGWOOD, Goldentwig.** Same as above except the bark is a distinct yellow in the winter.
2-3 ft.\$1.00
- EUONYMUS, Alatus.** (Flame Euonymus) There is no shrub which will draw more attention in the fall than this compact cork-barked euonymus . . . the leaves turn a brilliant, coppery-crimson tinged rose. Easy to grow, thrives in full sun or partial shade.
3-4 ft.\$2.50
- EUONYMUS, Alatus compacta.** (Dwarf Flame Euonymus) Same as above except that its compact growth, easy culture, and slow growth make it one of the outstanding shrubs for hedges as well as individual specimens in the garden. Ultimate height is only about four feet. Does well in shade.
15-18 in.\$1.25

ORNAMENTAL SHRUBS, Cont.

- EUONYMUS**, American. Often called Strawberry bush. Upright growing shrub with pink fruit in the fall. Foliage colors beautifully in the late autumn.
2-3 ft. \$1.50
- EUONYMUS**, European. Large shrub with dark green foliage—yellow and scarlet fruit in the fall.
2-3 ft. \$1.50
- FORSYTHIA, Spring Glory**. Enormous pale yellow flowers completely cover branches before the leaves appear.
18-24 in. \$.75 2-3 ft. \$1.00
- GOLDEN VICARY**. A most striking shrub, the thick leathery leaves are a rich golden yellow. Grows 4 to 5 feet tall.
18-24 in. \$1.00
- HONEYSUCKLE, Pink Tatarian**. Very hardy, vigorous, pink flowers followed with bright red fruit.
18-24 inch. \$.60 2-3 ft. \$.80
- HONEYSUCKLE, Zabel's**. A true red, not pink blooming honeysuckle. A tall upright growing bush covered with bright red flowers in early spring, followed with deep red berries.
2-3 ft. \$1.00
- HYDRANGEA A. G.** Large flat heads of double snow-white flowers. Likes shade.
18-24 in. \$1.10 2-3 ft. \$1.50
- HYDRANGEA, Blue Prince**. Flowers from July until frost. use about 1 tablespoon aluminum sulphate per plant to get blue flowers, otherwise blooms are a clear pink. Suggest same winter protection as roses. Plant in shade. Blooming size plants \$1.50
- HYDRANGEA P. G.** Late flowering, turns delicate pink and buff. Can be used for winter bouquets.
18-24 in. \$1.10 2-3 ft. \$1.50
- HYPERICUM** (Golden St. Johnswort) Hardy shrub with bright yellow flowers in August and September.
18-24 in. \$1.00
- KERRIA**. Graceful shrub with small light green foliage and glistening jet black berries late summer and fall.
18-24 in. \$1.00
- LILAC, French Named Varieties**. They bloom very young, generally the next year after planting. Each passing year adds to their beauty, and they last for generations.
Charles Joly, double purple-red.
Ludwig Spaeth, single maroon-red.
Mont Blanc, single white.
Pres. Grevy, double lilac blue.
18-24 in. \$1.25 2-3 ft. \$1.50
- LILAC, Persian**. Sometimes called Chinese Lilac. Various shades of lavender and purple blossoms literally cover the compact plants in May. This Lilac does not sprout away from the plant as the old-fashioned Lilac does.
12-18 in. \$.50 2-3 ft. \$.85
18-24 in.65 3-4 ft. 1.10
- MOCKORANGE, Virginal**. Semi-double fragrant flowers almost two inches in diameter. Repeats several times during the summer and fall.
12-18 in. \$.60 2-3 ft. \$1.35
18-24 in. 1.10 3-4 ft. 1.50

ORNAMENTAL SHRUBS, Cont.

QUINCE, Red Flowering. Sure to bloom, grown from blooming wood only. An upright growing type with deep scarlet blooms.

18 -24 in.**\$.85** 2-2½ ft.**\$1.00**
 2½- 3 ft.**1.25**

SHEPHERDIA (Silver Buffaloberry) Hardy shrub or small ornamental tree with silvery foliage. Small yellowish flowers in May and June.

2-3 ft.**\$1.25**

SNOWBALL. White flowers, early spring.

18-24 in.**\$.90** 2-3 ft.**\$1.35**

SPIREA, Anthony Waterer. Clusters of red flowers, in bloom all summer.

12-15 in.**\$.50** 15-18 in.**\$.70**

SPIREA, Arguta. Delicate light green leaves and single white flowers early spring.

2-3 ft.**\$1.00**

SPIREA, Froebel. Similar to Anthony Waterer, blooms rose-red. Foliage colors in the fall.

12-18 in.**\$.35** 18-24 in.**\$.50**
 2- 2½ ft.**.75**

SPIREA, Van Houtte. The most popular of all the Spireas Arching branches covered with white blossoms in spring.

18-24 in.**\$.40** 2-3 ft.**\$.50**
 3- 4 ft.**.75**

VIBURNUM, Burkwoodi (New English Hybrid) Improved Carlesi. Waxy blush-white, fragrant flowers are produced in early spring when the leaves are unfolding. It likes a well drained, sunny place with plenty of moisture.

15-18 in. B and B**\$4.50**

VIBURNUM, Dentatum (Arrow Wood) Attractive foliage—bluish-black fruit.

2-3 ft.**\$1.00**

VIBURNUM, Lantana. (Wayfaring tree) Bold, striking, fall color. Fruits red then black.

2-3 ft.**\$1.00**

VIBURNUM, Molle (Kentucky Viburnum) Similar to Dentatum. Of slower growth and more attractive foliage. Single white flowers followed by blue-black fruit.

2-3 ft.**\$1.50**

VIBURNUM, Pubescens (Downy Viburnum) Dwarf bushy shrub with slender branches—white flowers and black fruit.

2-3 ft.**\$1.50**

VITEX (Chaste Tree). A graceful shrub with attractive spikes of lavender-blue flowers, blooms profusely from July until frost.

Blooming Size Plants**\$1.00**

WEIGELA, Bristol Ruby. The best Red Weigela grown, flowers throughout summer and fall. See Page 1.

WEIGELA, Pink. Pink bell-shaped flowers in early spring. Can stand light shade.

2-3 ft.**\$.75**

HEDGES—LIVING FENCES

BARBERRY, Green. Red berries and coppery red foliage in the fall.

12-18 in.	Per 100, \$20.00
18-24 in.	Per 100, 25.00

CHINESE ELM. The fastest growing hedge. The more you trim it, the more compact it grows.

WHEN TO TRIM

Spring Blooming Shrubs, such as Spirea V. H. (Bridal Wreath), Lilacs, Forsythia, etc., should be trimmed shortly after they are through blooming. The new branches they produce during the summer provide the blooming wood for the next year's flowers.

Late Summer or Fall Blooming Shrubs should be trimmed before growth starts in the spring. Many varieties such as Hydrangeas, Spirea A. W. and Frobella should be trimmed back to within six inches of the ground . . . this promotes compact growth, profuse bloom and larger flowers.

Shade Trees can be trimmed at any time during the year.

LARGER SIZES OF SHADE, ORNAMENTAL AND EVERGREEN TREES AVAILABLE . . . SELECT YOURS AT THE NURSERY.

OUR GUARANTEE

We guarantee all our nursery stock to be true to name, and will replace any that proves otherwise, or will refund the amount paid, but we shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

We guarantee our nursery stock to be first class and to reach you in healthy, growing condition. All our stock is carefully handled and packed by experienced men and should grow for you under ordinary conditions. We have absolute confidence in the nursery stock we send you and will replace any that fails to grow, provided we are notified by July first after planting. No replacement after that date.

CLIMBING VINES

- AKEBIA.** Very ornamental, hardy climbing shrub or vine, especially adapted for places where only a light shade is desired. Likes sunny location and good composted soil. Attractive lavender blooms in May. Each **\$1.00.**
- BALTIC IVY.** Hardy evergreen vine for wall with north or east exposure. Each **\$.50.**
- BOSTON IVY.** Clings to rough surfaces. Colors in fall. Each **\$.75.**
- CLEMATIS, Large Flowering.** Available in Purple, Pink, Lavender and White. Each **\$1.00.**
- CLEMATIS, Paniculata.** Fragrant small white flowers in the fall. Each **\$.75.**
- HONEYSUCKLE, Gold Flame.** From June until frost this vine is covered with clusters of large fragrant flowers—flaming scarlet outside, gold inside. Each **\$1.00.**
- HONEYSUCKLE, Hall's.** Aside from being a favorite vine for both sunny and shady porches, it is extensively used for covering banks. Its growth is rapid and because it roots deeply, is an excellent plant to prevent washing of soil. Produces creamy white fragrant flowers all summer. Each **\$.50.**
- SILVER LACE VINE.** The fastest growing hardy vine. Tiny white flowers completely cover the plant in late summer. Each. **\$.75.**

SUP-RO

THE ONLY IMPREGNATED PLANT FOOD

**NO BURN — GOES TWICE AS FAR
ODORLESS**

For

**LAWNS — GARDENS — TREES
FLOWERS — SHRUBS**

"Sup-Ro" contains plant nutrients, so combined in a porous organic carrier as to effect their gradual release with each watering, and over a long period of time. Loss of the applied plant nutrients through leaching is thereby greatly reduced. Thus Sup-Ro will give a strong healthy feeding to plants each time it is saturated with water, for a considerable time after application.
